EDWARD JEMUEL G. MONTANO

Malabon, Metro Manila, 1470 |edwardmontano.dev@gmail.com | 09512881984

PROFESSIONAL SUMMARY

I am a passionate and curious IT student with experience in software development, IT support, and cybersecurity fundamentals. I have worked on real-world projects such as building websites, troubleshooting computer systems, and developing applications. I enjoy learning new technologies, solving problems, and collaborating with teams. I am eager to grow and contribute meaningfully by bringing my technical skills, security awareness, creativity, and enthusiasm to a forward-thinking company.

PROFESSIONAL EXPERIENCE

Prople BPO Inc. – IT Infrastructure Intern   *June 2025 – November 2025*
- Created user accounts and reset passwords using Active Directory.
- Troubleshot and resolved end-user technical issues.
- Performed daily tasks, including verifying antivirus security status and compliance.
- Conducted daily wireless network status checks.
- Learned and applied Nmap, Wireshark, and basic penetration testing concepts.
- Set up and configured laptops for new employees within the company domain.
- Learned how to connect wall LAN ports to the company data center.
- Created Network Infrastructure Diagrams for MDF and IDF.
- Assisted in checking random audits.
- Attended the seminar "Ignite the Power of Cybersecurity with Sophos: A Rollout to a Safer Future."
- Attended a technical deep-dive workshop powered by Rubrik and Microsoft.
- Completed Google Workspace Admin Training and Google Workspace End User Training.

PMX 515 Prime Inc. - Part-Time/ On call IT   *August 2024- January 2025*
- Troubleshooted and resolved issues with Mac/Windows computers and domain email accounts.

Full Stack Developer

• Designed and developed a complete tabletop role-playing game with custom mechanics, storytelling elements, and immersive world-building.

EDUCATION

School Name, Pamantasan ng Lungsod ng Valenzuela
Bachelor of Science in Information Technology *Currently 4th year*

INTEREST

- Cyber Security
- Artificial Intelligence
- Machine Learning

PROFESSIONAL DEVELOPMENT

July 11, 2025
- Ignite the Power of Cybersecurity with Sophos: A Rollout to a Safer Future.

July 15, 2025

- Technical deep-dive workshop seminar powered by Rubrik and Microsoft.

July 18, 2025
- Google Workspace End User Training

July 25, 2025
- Google Workspace Admin Training

April 20, 2024
- Unlocking Innovation Navigating Digital Transformation in Today's Landscape
- IT Developer Life Hacks: Working Smart as a Computer Programmer

April 21, 2024
- Fortifying the Future: Navigating the Landscape of Cybersecurity essentials
- Cybersecurity in the Real World: Protecting Yourself and Your Future Career

April 24, 2024
- Unleashing the Power of AI and Machine Learning: Transforming Industries and Driving Innovation
